

Name:

Date of Birth:

To Whom It May Concern:

The above-mentioned patient is attending the Endocrinology Department at The Hospital for Sick Children. The patient has been prescribed specific growth hormone treatment _____. We have provided them with cartridges of liquid that must remain cool. This product is given by daily injection and requires needle tips, syringes and/or pen device.

Due to the nature of the above-mentioned medications, they must remain with the patient or caregiver at all times (i.e., carry-on baggage only, in cooler bag with ice packs). Feel free to search the products by hand and contact the clinic for any further information.

Contact the 24-hour Endocrine Response Line at 416-813-7500. ****Please note this number should only be used for SickKids patients only.****

Thank you for your cooperation.
